Jun:

March 2016 has so far has been fairly strong. Most importantly, March will be a four-week chargeback load.

My estimate is gross sales of between  
consistent with our budget target.

Redacted -  
Other

And the net number

Redacted -

We have several million dollars of backorders with valsartan. If we can ship this backorder, the net number could be \$

Redacted -

Solco is also struggling with the benazepril inventory. We have some significant orders from Wal-Mart which we are uncertain we could ship this month.

Regards

Shafi

Shafi,

Mr Chen wants to know the update March sale since the last month went to very bad. Could you give me some rough number based on your estimate?

Looking for hearing from you asap.

Jun:

Thanks for the update.

I am back in town March 23<sup>rd</sup> (Wednesday).

I will have the ECRM update by Monday.

Regards

Shafi

**Subject:** Re: FW: Ropinirole PO91560/91578

Hi,Shafi ÅC

I am sorry that I can not push Redacted  
Other shipping release earlier due to some broken tablets have been founded.

The quality investigation is under going.

Jun:

With Solco retaining McKesson's business and with Solco gaining new businesses due to the current market conditions, any help you can extend to manufacture/release ropinirole according to Ken's recommendation is much appreciated.

Regards

Shafi

Hi Yazhen,

Please note that based on the schedule you have provided in your e-mail below, not only we are going to be out of stock on a number of SKU's but also we would need to bring quite a bit of product by air so please try to see if they can move up the release date on entire PO 91578 to no later than end of Apr (preferably sooner). And lastly moving forward we would need to evaluate whether we need to bring in any product by air before any of the following schedules is released as we get close to the release dates. With that said, most likely we need to have additional product shipped by air against the iEarly Arp release date on PO 91560 which we will finalize in the next couple of days.

Thanks,

Ken

**Importance:** High

Hi Ken,

Please find below updates on the release schedule for Redacted - Other Product(s). Regarding PO91560, please note the release date for second part is pushed backed from 3/26 to 3/30 (marked in yellow). The release date for the 3 batch of 0.5mg against this PO is still TBD at this point and I'll keep following up with Huahai.

In addition, Huahai requests to reduce one batch of 0.5mg against PO91578 due to common blend requirement in the production process of this product. Please revise the PO. Thank you! We are revising the PO

PO#	Product	Strength	Packaging Size	QTY	Release date	Dispatch Date	Note
